## OUR SERVICES

### COUNTERTOP & SINK REFINISHING

Bathroom vanity refinishing is often the best option for tile, cultured marble, or Formica® countertops. In addition to the bathroom vanities, Top Refinishers can also refinish your bathroom sink. Refinishing will extend the useful life of most any bathroom fixture or surface for 15 years or more.

### CERAMIC TILE REFINISHING

Ceramic tile refinishing is a process that involves specialized equipment, primers, bonding agents, top coats and clear finishes. The differences between painting vs. refinishing tile are durability, surface gloss and how long the new surface will last.
